AREAS OF COMPETENCE

Hasaas is mainly working within energy sector, including oil and gas, oil services and renewable energy. He has more than 15 years' experience from the Norwegian and international petroleum industry and has broad competence within energy law, energy related contracts and corporate/M&A. Hasaas is regularly advising large international companies in connection with acquisitions of energy related assets in Norway.

Hasaas has also experience from several large construction projects within the energy and infrastructure sector and regularly advises major oil companies and companies within the oil service industry.

RANKINGS

Chambers Global 2014:

"Practice head Olav Hasaas is described as "a great all-round lawyer" and impresses clients with his experience of asset transactions on the NCS. "He is always up to speed," confirms one source. "

Legal 500 2013:

"While the M&A work is centered on Stavanger, the Oslo office [of Kluge] was strengthened by the recent arrival of the 'practical, responsive and experienced' oil and gas M&A expert Olav Hasaas."
